Contents Volume 55, 1988

Introduction
J.V. Ward (Davis, CA, U.S.A.) and Kam-Biu Liu (Baton Rouge, LA, U.S.A.) 1
The establishment of vegetation after Late Pleistocene deglaciation in the Paramo de Miranda, Venezuelan Andes
M.L. Salgado-Labouriau (Caracas, Venezuela), V. Rull (Caracas, Venezuela), C. Schubert (Caracas, Venezuela), and S. Valastro (Austin, TX, U.S.A.) 5
A paleobotanical and palynological study of Holocene peat from the El Bosque mire, located in a volcanic area of the Cordillera Central of Colombia
P. Kuhry (Amsterdam, The Netherlands) 19
Three pollen diagrams of forest disturbance in the western Amazon Basin
P.A. Colinvaux (Columbus, OH, U.S.A.), M. Frost (Columbus, OH, U.S.A.), I. Frost (Columbus, OH, U.S.A.), Kam-Biu Liu (Baton Rouge, LA, U.S.A.) and M. Steinitz-Kannan (Highland Heights, KY, U.S.A.) 73
Late-glacial and Holocene pollen diagrams from two endorheic lakes of the Inter-Andean Plateau of Ecuador
P.A. Colinvaux (Columbus, OH, U.S.A.), K. Olson (Columbus, OH, U.S.A.), and Kam-Biu Liu (Baton Rouge, LA, U.S.A.) 83
Changes of major wind belts and vegetation zones in NW Africa 20,000–5000 yr B.P., as deduced from a marine pollen record near Cap Blanc
H. Hooghiemstra (Göttingen, F.R.G.) 101
New pollen data from the Sahel, Senegal
A.M. Lézine (Marseille, France) 141
A review of Late Quaternary pollen studies in East, Central and Southern Africa
E.M. Van Zinderen Bakker and J.A. Coetzee (Bloemfontein, South Africa) 155
Pollen analysis of Late Quaternary sediments: evolution of upland savanna in Sandynallah (Nilgiris, South India)
G. Vasanthy (Pondicherry, India) 175
The distribution of pollen and algae in surface sediments of Dianchi, Yunnan Province, China
Xiangjun Sun and Yushu Wu (Beijing, China) 193
Evidence for Late Quaternary vegetational change in the Sumatran and Javan highlands
I. Stuijts (Groningen, The Netherlands), J.C. Newsome (Hull, England) and J.R. Flenley (Hull, England) 207
Paleogeographical evolution of the Mahakam delta in Kalimantan, Indonesia during the Quaternary and Late Pliocene
C. Caratini and C. Tissot (Talence, France) 217
The palynology of Holocene mangrove and saltmarsh sediments, particularly in northern Australia
J. Grindrod (Canberra, A.C.T., Australia) 229
Palynology of Kosrae, Eastern Caroline Islands: recoveries from pollen and Holocene deposits
J.V. Ward (Davis, CA, U.S.A.) 247
Palaeolimnological and documented evidence for alkalization and acidification of two moorland pools (The Netherlands)
H. Van Dam (Leersum, The Netherlands), B. Van Geel (Amsterdam, The Netherlands), A. Van der Wijk (Groningen, The Netherlands), J.F.M. Geelen (Nijmegen, The Netherlands), R. Van der Heijden (Nijmegen, The Netherlands) and M.D. Dickman (Leersum, The Netherlands) 273
Early Devonian plant remains from Marchin (North of Dinant Synclinorium, Belgium), I. *Zosterophyllum deciduum* sp. nov.
P. Gerrienne (Liège, Belgium) 317
Cornetipollis reticulata, a new pollen with angiospermid features from Upper Triassic (Carnian) sediments of Arizona (U.S.A.), with notes on *Equisetisporites*
S.A.J. Pocock (Creston, B.C., Canada) and G. Vasanthy (Pondicherry, India) 337
